

TRASH WALKS WITH NOT LADYLIKE COMMUNITY

ENVIRONMENT

THE EVENING'S SCHEDULE

6:30pm - a slow start with introductions for new folks

6:35 to 7:30 - each individual chooses their own path and pace to pickup garbage, coming together with other walkers and moving apart as they choose to

7:30pm - we drive independently or carpool to a second location (a local casual place that serves food/drinks) to warm up and chat OR you can go home *your choice*.

PERFECT FOR INTROVERTS

You can wander off on your own to avoid the small talk, you get to practice introducing yourself to a small group, and there is always an easy topic to default to - the garbage! It's a win-win-win for the socially anxious!

**THERE IS NO FORMAL PROGRAMMING
AND NO EXPECTATION FOR
CONVERSATIONS.**

DRESS FOR THE WEATHER

Please dress to be outside for one hour, whatever the weather, and bring the mobility aids that will make you most comfortable.

SHARED SUPPLIES

We provide large black garbage bags and small bags for bottle depot items. We share our 2 grabbers and sharps container.

ACCESSIBILITY

We choose parks with easy bus access, accessible sidewalks, and a lot of hard surfaces.

We are a group of likeminded folks who enjoy being outside and taking care of our environment. Every Earth Month we host weekly trash walks in a local park because this is closely aligned with our values - and it's a lot of fun too!
